Chi Council for the Clear Lake Hitch
2010 Observation Report Sheet

Date	Time	Creek	Location	Number	Comments

Send your results by email to *chicouncil@ lakelive.info*, fax them to (707) 263 6224 ; or mail to Chi Council, c/o Peter Windrem, 7460 Kelsey Creek Dr, Kelseyville, CA 95451. Please remember that negative observations (no hitch seen) are just as valid and important as positive ones, and that the minimum information needed for an entry into the database is date, creek, and approximate number of fish. Time of day, precise location, and additional comments about weather, predators, etc are all very helpful but not essential.
